To whom it may concern: I am pleased to write a letter of recommendation for Kerem. He was my student in the Front-end Web Development Training Program for the past four weeks, and I believe that I am in a solid position to recommend him. As his tutor, I have had an opportunity to observe his participation and interaction in class and to evaluate his knowledge of the subject matter. He is an outstanding student in all respects. He has proven that through hard work, follow-through, and teamwork, he can accomplish tasks in a courteous and timely manner. He is well equipped to grow from the challenges that he is presented with. His proactivity, good staging, and fast learning skills prepare him beautifully for your organization. I strongly endorse making Ali Kerem Ata a member of your team.
